# COMMUNITY COLLABORATIONS

## PACES (Youth Services)

My Patients and Innovaccer, the program where Paces Care Coordinators can see the youth's medical history and any recommendations their providers have listed. Paces Care Coordinators are also notified of emergency room visits for behavioral and non-behavioral visits daily which helps us quickly connect with families and acute hospitals.

## Adult Services

EpicCare allows Care Coordinators access to KU Med's EHR so Treatment Teams can better collaborate with the correct staff at KU and with the most up to date information.

Closed Loop Referrals with Vibrant Health, Swope Health, and Mercy and Truth Health. Referrals occur with Wyandot BHN referring for PCP and Health Care and these community partners referring to WyandotBHN for Behavioral Health. Since Sept of 2024 there have been more than 1200 referrals placed both to and from with an average of 85% success in establishing services.
