# About IRIS

IRIS is an online bi-directional referral tool that streamlines communications between community providers offering services to individuals and families. **IRIS helps partners identify available resources, make referrals, and monitor whether families receive the help they choose.**

## People Powered

- Community-based leadership
- Co-created approach
- Dedicated implementation team
- Peer learning with leaders across IRIS networks

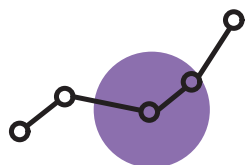

## Technology Enabled

- Closed referral loops
- Customized forms
- Real-time notifications
- Organization capacity indicator
- Personalized technical support

## Data Driven

- HIPAA-compliant
- Data owned and managed by the community
- Meaningful reporting
- Support for data-driven decision making

*We're improving individuals' experiences by bridging the referral gap.*

## IRIS can help you:

**Connect** families to the right services to meet their needs.

**Communicate** through common forms and standardized protocols.

**Link** service agencies and organizations within your community.

**Streamline** referral and service acceptance with your partners.
