Race:

- American Indian/Alaskan Native Asian Native Hawaiian/Pacific Islander Multi-racial Other
 Black/African American White/Caucasian Prefer not to say

Ethnicity:

- Hispanic/ Latino Not Hispanic/Latino Prefer not to say

Social and Trauma History (Current living situation, employment status, pertinent legal history, level of education, relationship status, children, support system, etc.)

Member currently resides in a Nursing Facility in rural Kansas. He's been at this NF twice in the last year. Member's first visit was September 2021 & he returned again in May, 2022.

Member has started the effort to return back to the Community because he feels Nursing Facility life isn't his thing and he has friends there.

Member had a repatriation visit completed in February 2022, which had been closed in April 2022 because the member left the nursing facility.

Member now has a second repatriation in process as the member was readmitted to the NF. Member was found with an altered mental status (possibly from intoxication), and member had frostbite in his extremities when taken to the Emergency Department.

Member has friends are his support system. Member uses manual wheelchair to ambulate.

Member did not complete high school. Member has never been married & he has a brother that resides on the West Coast who is his next of kin, emergency contact & his DPOA. SHP is member's only health insurance as member receives Social Security Disability benefits.

Medical History (Diagnosis, conditions, etc.)

Medication Summary (Name, dose, frequency, route)

Project ECHO: Sunflower Health Plan Case Presentation

Code	Description	
F10.99	ALCOHOL USE, UNSPECIFIED WITH UNSPECIFIED ALCOHOL-INDUCED DISORDER	Tab-A-Vite

Treatment Summary (Form of treatment, date entered, voluntary, etc.)		

Project ECHO: Sunflower Health Plan Case Presentation

No treatment information from prior to the NF stay.

Barriers to Treatment

Members current barriers are:

He is currently in a NF where he doesn't want to be. Member has no home or place to return to once discharged. Member will need an accessible place due to his amputations.

Future barriers:

May need supports for alcohol use
