

Sunflower Project ECHO: Preventive Health

What is Project ECHO? “Project ECHO (Extension for Community Healthcare Outcomes) is a movement to de-monopolize knowledge and amplify local capacity to provide best practice care for underserved people all over the world. Experts mentor and share their expertise across a virtual network via case-based learning. Equipping communities with the right knowledge, at the right place, at the right time.” <https://echo.unm.edu>

THIS PROJECT ECHO SERIES WILL FOCUS ON:

Understanding of expectations of Early Periodic Screening Diagnosis and Treatment (EPSDT)

Understanding the schedule for preventative care and immunizations for youth

Understanding how to access supports related to immunizations and preventative care in Kansas

Please plan to attend our Project ECHO sessions **the last three Thursdays in October and the first Thursday in November from noon-1:00 p.m. CT via Zoom video conferencing.**

- **Oct 15** - EPSDT Overview – Samantha Ferencik, KDHE
- **Oct 22** - KAN Be Healthy – Jessica Willard, KDHE
- **Oct 29** - Childhood Immunizations – Maria Dycoco, MD, Children’s Mercy Kansas City
- **Nov 5** - Treatments and Therapies – Teresa Snow, Sunflower Health Plan

The Office of Continuing Education, School of Medicine, and the Sinclair School of Nursing at the University of Missouri is offering continuing education credits for physicians, advanced practice nurses, and nurses. Project ECHO: Sunflower Health Plan can provide a certificate of completion for all other credentials.

Please register for this Project ECHO series at www.sunflowerhealthplan.com/providers/project-echo.html.

If you have questions or require additional information, please email projectECHO@sunflowerhealthplan.com.
